Notes to the Financial Statements
For the year ended 30 September 2019

1. REPORTING ENTITY

The Veterinary Professional Insurance Society Incorporated (“VPIS” or “Society”) is a Public Benefit Entity registered as an Incorporated Society under the Incorporated Societies Act 1908 and is domiciled in New Zealand. Under the Insurance (Prudential Supervision) Act 2010 insurers are FMC entities as defined by the Financial Markets Conduct Act 2013.

On 15 July 2013 VPIS was issued its original licence and on 13 August 2015 was issued a revised license to carry on insurance business in New Zealand under the Insurance (Prudential Supervision) Act 2010, and is eligible to use the small insurance exemptions under this Act.

VPIS’s principal activities are to establish such schemes or arrangements for insurance on behalf of members of VPIS against professional liability or fidelity guarantee insurance, and to promote administer and operate, on behalf of Members of VPIS, any scheme of insurance so arranged. VPIS also provides advice and education to its members.

VPIS operates a professional liability insurance scheme for veterinary practices and has operated on its revised license since August 2015. VPIS takes advantage of all of the small insurer exemptions. These financial statements were approved for issue by the Board of VPIS on 30 January 2020.

2. STATEMENT OF COMPLIANCE

The financial statements have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand (“NZ GAAP”). They comply with Public Benefit Entity International Public Sector Accounting Standards (“PBE IPSAS”) and other applicable financial reporting standards as appropriate that have been authorised for use by the New Zealand Accounting Standards Board for Not-For-Profit entities. For the purposes of complying with NZ GAAP, the Society is a public benefit not-for-profit entity and is eligible to apply Tier 2 Not-For-Profit PBE IPSAS on the basis that it falls within the small insurer exemption.

The Board has elected to report in accordance with Tier 2 Not-For-Profit PBE Accounting Standards and in doing so has taken advantage of all applicable Reduced Disclosure Regime (“RDR”) disclosure concessions.

3. CHANGES IN PRESENTATION BETWEEN YEARS

The only change between the years in the presentation of the information is to include personnel costs as VPIS employed its own CEO during the year. Other than this all policies and presentations have been the same.

Veterinary Professional Insurance Society Incorporated
Notes to the Financial Statements
For the year ended 30 September 2019

4. SUMMARY OF ACCOUNTING POLICIES

The significant accounting policies used in the preparation of these financial statements are set out below

4.1 Basis of measurement

The measurement system adopted is standard historical cost except for the investment portfolio which is at fair value and the claims provision which is accounted for in accordance with PBE IFRS 4. The accrual basis of accounting has been used unless otherwise stated and the financial statements have been prepared on a going concern basis.

4.2 Presentation and Functional Currency

The VPIS financial statements are presented in New Zealand dollars (\$), which is VPIS's functional currency. All financial information presented in New Zealand dollars has been rounded to the nearest dollar.

4.3 Revenue

Revenue is recognised to the extent that it is probable that the economic benefit will flow to the Society and revenue can be reliably measured. Revenue is measured at the fair value of the consideration received, excluding goods and service tax, and insurance recoveries.

The following specific recognition criteria must be met before revenue is recognised.

Revenue from Exchange Transactions

Gross Premium

Gross general insurance written premiums comprise the total premiums receivable for the whole period of cover provided by contracts entered into during the reporting period. They are recognised on the date on which the policy commences. Premiums include any adjustments arising in the reporting period for premiums receivable in respect of business written in prior accounting periods.

Unearned premiums are those proportions of premiums written in a year that relate to periods of risk after the reporting date. Unearned premiums are calculated on a daily pro rata basis. The proportion attributable to subsequent periods is deferred as a provision for unearned premiums.

Membership Revenue

The proportion of membership revenue that is attributable to the current financial year is recognised as revenue in that insurance year. Where this is paid in advance, the unearned portion has been shown as income in advance.

Veterinary Professional Insurance Society Incorporated
Notes to the Financial Statements
For the year ended 30 September 2019

Premiums ceded to reinsurer

Gross outward reinsurance premiums on insurance contracts are recognised as an expense on the earlier of the date when premiums are payable or when the policy becomes effective.

Gross general reinsurance premiums ceded comprise the total premiums payable for the whole cover provided by contracts entered into in the period and are recognised on the date on which the policy incepts. Premiums include any adjustments arising in the accounting period in respect of reinsurance contracts incepting in prior accounting periods.

Unearned reinsurance premiums are those proportions of premiums ceded in a year that relate to periods of risk after the reporting date. Unearned reinsurance premiums are deferred over the term of the underlying direct insurance policies for risks-attaching contracts and over the term of the reinsurance contract for losses-occurring contracts.

Premiums ceded to reinsurer continued;

Reinsurance premiums on the face of the statement of comprehensive revenue and expense have been presented as negative items within net premiums.

Investment Income

Investment income includes net proceeds from dividends, interest received, and investments sold during the year. Interest revenue is recognised as it accrues. Dividend revenue is recognised when the dividend is received.

Gains or losses resulting from changes in the market value of shares and bonds are separately identified.

Investment Property Income

Investment property income is the rental income from VPIS's share in the investment property held jointly with the New Zealand Veterinary Association and the New Zealand Veterinary Trust.

4.4 Financial Instruments

Financial assets and financial liabilities are recognised when the Society becomes a party to the contractual provisions of the financial instrument.

The Society derecognises a financial asset or, where applicable, a part of a financial asset or part of a group of similar financial assets when the rights to receive cash flows from the asset have expired or are waived, or the Society has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party; and either:

- the Society has transferred substantially all the risks and rewards of the asset; or
- the Society has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial assets

Financial assets within the scope of PBE IPSAS 29 Financial Instruments: Recognition and Measurement are classified as financial assets at fair value through surplus or deficit, loans and receivables, held-to-maturity investments or available-for-sale financial assets. The classifications of the financial assets are determined at initial recognition.

Veterinary Professional Insurance Society Incorporated
Notes to the Financial Statements
For the year ended 30 September 2019

Financial Instruments, Financial Assets continued;

The categorisation determines subsequent measurement and whether any resulting income and expense is recognised in surplus or deficit or in other comprehensive revenue and expenses. The Society's financial assets are classified as either financial assets at fair value through surplus or deficit, or loans and receivables. VPIS's financial assets include; cash and cash equivalents, short term investments, receivables from exchange transactions, investment portfolio and investment property.

All financial assets except for those at fair value through surplus or deficit are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or group of financial assets is impaired. Different criteria are used to identify whether there is any objective evidence that a financial asset or group of financial assets are impaired. These criteria are described below.

Financial assets at fair value through surplus or deficit

Financial assets at fair value through surplus or deficit include financial assets that are either classified as held for trading or that meet certain conditions and are designated at fair value through surplus or deficit upon initial recognition. All investments of VPIS, except its property investment, fall into this category of financial instruments

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial recognition, these are measured at amortised cost using the effective interest method, less provision for impairment. VPIS's cash and cash equivalents, short-term investments and receivables from exchange transactions fall into this category of financial instruments.

Impairment of financial and non-financial assets

At each reporting date, the carrying amounts of tangible and intangible assets are reviewed to determine whether there is any indication of impairment. If any such indication exists for an asset, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses directly reduce the carrying amount of assets and are recognised in surplus or deficit within the Statement of Comprehensive Revenue and Expenses.

Financial Liabilities

The Society's financial liabilities include accounts payables from exchange transactions and sundry payables.

All financial liabilities are initially recognised at fair value (plus transaction cost for financial liabilities not at fair value through surplus or deficit) and are measured subsequently at amortised cost using the effective interest method.

4.5 Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held on call with banks and short-term deposits which have a term of 90 days or less. These are highly liquid investments readily convertible into known amounts of cash which are subject to an insignificant risk of changes in value. Their carrying value approximates to their fair value.

Veterinary Professional Insurance Society Incorporated
Notes to the Financial Statements
For the year ended 30 September 2019

4.6 Short Term Investments

Short term investments comprise term deposits which have a term of greater than three months but less than 12 months, and therefore do not fall into the category of cash and cash equivalents.

4.7 Receivables from Exchange Transactions

Accounts receivable from exchange transactions are non-interest bearing and receipt is normally due for re-insurance in 7 days and other receivables in 30 days. Therefore, the carrying value of receivables approximates its fair value. As at 30 September 2019 and 2018, all overdue balances have been assessed for impairment and no allowance was necessary.

All receivables are subject to credit risk exposure.

4.8 Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a non-exchange transaction is their fair value at the date of the exchange. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition.

Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired.

The amortisation period and the amortisation method for an intangible asset with finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits or service potential embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

The amortisation expense on intangible assets with finite lives is recognised in surplus or deficit within the depreciation and amortisation line.

The Society doesn't hold any intangible assets that have an indefinite life. The useful economic life of the software recently developed and included in the financial statements is expected to be 5 years.

4.9 Investment Property

The investment property is held to earn rentals and/or for capital appreciation, and is accounted for using a historical cost model.

The investment property is stated at cost less accumulated depreciation and any impairment. Depreciation is charged on a straight line basis over the useful life of the asset and recognised as an expense in the Statement of Comprehensive Revenue and Expenses.

The depreciation period for the property is as follows.
Investment Property - 50 years

Veterinary Professional Insurance Society Incorporated
Notes to the Financial Statements
For the year ended 30 September 2019

4.10 Computer Assets

The Society recently acquired computer hardware assets.
The depreciation period for the computer is as follows;
Computer hardware - 2.5 years

4.11 Income Tax

VPIS is exempt from income tax under the Veterinary Services Bodies provisions of Section CW50 of the Income Tax Act 2007.

4.12 Goods and Service Tax (GST)

The financial statements have been prepared on a GST exclusive basis, except for receivables from exchange transactions and accounts payable from exchange transactions which are stated inclusive of GST.

The net amount of GST payable to the Inland Revenue Department is included as part of the payables from exchange transactions in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flows on a net basis. The GST component of cash flows which is recoverable from, or payable to, the Inland Revenue Department is classified as part of operating cash flows.

4.13 Provisions

A provision is recognised for a liability when the settlement amount or timing is uncertain; when there is a present legal or constructive obligation as a result of a past event; it is probable that expenditures will be required to settle the obligation; and a reliable estimate of the potential settlement can be made.

Provisions are not recognised for future operating losses.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation.
Provisions are discounted to their present values, where the time value of money is material.

All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

4.14 Expenditure

Gross Claims

Gross insurance claims, fees and expenses include the cost of all claims occurring during the year, and related internal and external claims handling costs that are directly related to the processing and settlement of claims.

Claims Ceded

Reinsurance claims are recognised when the related gross insurance claim is recognised according to the terms of the relevant contract.

Veterinary Professional Insurance Society Incorporated
Notes to the Financial Statements
For the year ended 30 September 2019

Expenditure continued

Other Operating Expenses

All other expenses are recognised in surplus and deficit within the Statement of Comprehensive Revenue and Expenses, upon utilisation of the service or at the date of their origin.

4.15 Reinsurance ceded to reinsurance counterparties

VPIS cedes insurance risk in the normal course of business. Reinsurance assets represent balances due from reinsurance companies. Amounts recoverable from reinsurers are estimated in a manner consistent with the outstanding claims provision or settled claims associated with the reinsurer's policies and are in accordance with the related reinsurance contract.

Reinsurance assets are reviewed for impairment at each reporting date, or more frequently, when an indication of impairment arises during the reporting period. Impairment occurs when there is objective evidence as a result of an event that occurred after initial recognition of the reinsurance asset that VPIS may not receive all outstanding amounts due under the terms of the contract and the event has a reliably measurable impact on the amounts that VPIS will receive from the reinsurer. The impairment loss is recorded in the Statement of Comprehensive Revenue and Expenses.

Gains or losses on buying reinsurance are recognised in the statement of comprehensive revenue and expense immediately at the date of purchase and are not amortised.

Ceded reinsurance arrangements do not relieve VPIS from its obligations to policyholders.

4.16 Insurance receivables

Insurance receivables are recognised when due and measured on initial recognition at the fair value of the consideration received or receivable. Subsequent to initial recognition, insurance receivables are measured at amortised cost, using the effective interest rate method. The carrying value of insurance receivables is reviewed for impairment whenever events or circumstances indicate that the carrying amount may not be recoverable, with the impairment loss recorded in the statement of comprehensive revenue and expense.

Insurance receivables are derecognised when the de-recognition criteria for financial assets have been met.

5. SIGNIFICANT MANAGEMENT JUDGEMENTS AND ESTIMATES IN APPLYING ACCOUNTING POLICIES

When preparing the financial statements management undertakes a number of judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of revenue, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities.

Judgements have been made in respect of claims acceptance and validity. Further significant estimates are made in conjunction with the appointed Actuary to determine the provision for future claims amounts. Uncertainty about these judgements and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Veterinary Professional Insurance Society Incorporated
Notes to the Financial Statements
For the year ended 30 September 2019

Significant Management Judgements and Estimates in Applying Accounting policies continued

VPIS management based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Society. Such changes are reflected in the assumptions when they occur.

The risk under any one insurance contract is the possibility that one or more insured events occurs and the uncertainty of the amount of the resulting claim. By the very nature of an insurance contract, this risk is unpredictable.

Moreover, the estimate of the outstanding claims provision is subject to uncertainty due to the tail claims risk for some of the products written by VPIS. Premiums are earned within one year, but the reserves for possible claims remain on the balance sheet for several years. The ultimate claims costs of the claims outstanding at any particular date may be materially higher or lower than current estimates.

VPIS has developed its reinsurance strategy to mitigate these insurance risks. All policies are underwritten so the maximum exposure to VPIS in any one year is the aggregate of \$50,000 per claim or \$150,000 in any year. Insurance events are unpredictable, and the actual number and amount of claims will vary from year to year but VPIS is exposed in each year to a maximum of \$150,000 plus any costs it accepts as part of the process.

The principal risk that VPIS faces under its insurance contracts is that the actual claims exceed the carrying amount of the insurance provisions for any year, and the reinsurer refuses or is unable to pay the excess. This risk is mitigated by the reinsurer's involvement in every claim from the outset.

VPIS may agree to pay expenses in excess of the insured amount in the policy in certain cases, for example in respect of Administrative Hearings. In such cases, the total claims cost for the year may exceed the retention limit.

Amounts recoverable from reinsurers are estimated in a manner consistent with the outstanding claims provision and are in accordance with the reinsurance contracts. Although VPIS has reinsurance arrangements, it is not relieved of its direct obligations to its policyholders and thus a credit exposure exists with respect to ceded insurance, to the extent that any reinsurer is unable to meet its obligations assumed under such reinsurance agreements.

Short term insurance liabilities are not directly sensitive to the level of market interest rates, as they are undiscounted and contractually non-interest bearing.

Insurance Credit risk

VPIS has a contingent liability if for any reason expected recoveries are not received from the underwriters.

Veterinary Professional Insurance Society Incorporated
Notes to the Financial Statements
For the year ended 30 September 2019

Claim Liability Assumptions

VPIS's Appointed Actuary, Christine Ormrod FNZSA FIA of PricewaterhouseCoopers Consulting (New Zealand) LP, has prepared a valuation of VPIS's outstanding claims liability as at 30 September 2019.

The valuation was undertaken using the chain ladder methodology for determining future claim payments on open claims. Key assumptions used in determining the outstanding claims liability were as follows:

- Discount rate – nil. Most claims are settled within the year of opening or the following year.
- Inflation rate – the same rates as in recent experience are implicitly allowed through the chain ladder methodology. No additional allowance was made
- Future claims expenses – 16% (2018: 2%) of claims payments for claims handling. All other claims expenses are assumed to be passed to VPIS's reinsurer
- Reinsurance – as VPIS has met its retention level in each recent year, all future claims payments are assumed to be covered by reinsurance
- The pattern of claims run-off assumed was

Development year	1	2	3	4+
Additional percentage of claims already incurred	100%	3%	1%	0%

The provision for future claim expenses has increased to 16%, from 2%, of future claim payments since last year. The impact of this was to increase the net provision for outstanding claims by \$45,000 at 30 September 2019. No other assumptions have been changed.

Veterinary Professional Insurance Society Incorporated
Notes to the Financial Statements
For the year ended 30 September 2019

Uncertainty and sensitivities

The estimate of the outstanding claims provision is subject to a significant amount of uncertainty as it can take several years for the final cost of a claim to be known. The ultimate claims costs of the claims outstanding at any particular date may be materially higher or lower than the current estimates. However, the stop-loss reinsurance treaty in place with Vero Liability reduces the volatility of VPIS's profit, with the net of reinsurance underwriting result generally known within the year.

The valuation results are sensitive to the assumptions relating to the pattern of which claims are reported and the mixture of claims received, particularly the amount paid in the year after claim inception. As VPIS is a small business, its experience is likely to be more volatile. Sensitivity tests have been carried out to determine the impact of an adverse change to the underlying assumptions in the projections.

	Effect on revenue and net equity
Claim development factors 20% higher	(9,336)
Claim development factors 20% lower	5,851
Claim handling expenses 5% higher	(14,022)
Claim handling expenses 5% lower	14,022

This is the second valuation by an Appointed Actuary. The net ultimate claims cost for the nine most recent claim years, from years ending 30 September 2011 to 30 September 2019 are as follows:

Underwriting Year	Valuation year								
	2011	2012	2013	2014	2015	2016	2016	2016	2019
2011								150,000	150,000
2012							150,000	150,000	
2013						150,000	150,000		
2014					150,000	150,000			
2015				150,000	150,000				
2016			150,000	150,000					
2017		75,913	150,000						
2018	150,000	75,913							
2019	150,000								

Net paid claims	150,000	75,913	150,000	150,000	150,000	150,000	150,000	150,000	150,000
-----------------	---------	--------	---------	---------	---------	---------	---------	---------	---------

Net undiscounted outstanding claims	-
Discounting	-
Indirect expenses	36,026
Risk margin	<u>8,974</u>
Provision for net outstanding claims	45,000

Veterinary Professional Insurance Society Incorporated
Notes to the Financial Statements
For the year ended 30 September 2019

6. NET CLAIMS COST

VPIS reinsures its exposure to claims and seeks to recover all costs over the agreed cap from its reinsurer. Each year the Society makes a full provision up to the cap for potential claims and claims received but not yet settled. This provision is reduced during the year as claims and related expenses are paid.

An agreement was made in 2017-18 relating to certain over cap claims expensed in 2016-17, which resulted in prior year claims costs being recovered; the surplus was recognised as revenue in 2017-18.

Underwriting Expenses and recoveries continued

	2019	2018
	\$	\$
Claims, fees & expenses		
Expenses incurred - current year claims	202,069	316,863
Expenses incurred - prior years claims	370,245	211,798
	<u>572,314</u>	<u>528,661</u>
Insurance expenses recovered - current year claims	(52,069)	(166,863)
Insurance expenses recovered – prior-year claims	(361,611)	(256,644)
	<u>(413,680)</u>	<u>(423,507)</u>
Movement in net outstanding claims	<u>45,000</u>	<u>-</u>
Net Claims cost for the year	<u>203,634</u>	<u>105,154</u>

7. LIABILITY ADEQUACY TESTING AND SOLVENCY DISCLOSURE

Liability adequacy test and unexpired risk provision

A liability adequacy test (LAT) is a test to determine whether the net unearned premium provision is sufficient to cover the net premium liability. The net premium liability is the provision deemed necessary to cover the claim risk and expenses associated with unearned premiums plus a risk margin. An unexpired risk provision is required if there is a deficit of net unearned premium provision less deferred acquisition costs (DAC) compared to net premium liability.

VPIS's unearned premium as at 30 September 2019 is \$5,778 for the insurance year ended 30 September 2019. This related to some run-off insurances. There is no other net premium liability either so there is no overall deficit under the LAT.

Veterinary Professional Insurance Society Incorporated
Notes to the Financial Statements
For the year ended 30 September 2019

Solvency Position

Under section 4.5 of the Solvency Standard for Non-Life Insurance business, issued by the Reserve Bank of New Zealand under section 55 of the Insurance (Prudential Supervision) Act 2010, VPIS is required to disclose certain information regarding its solvency position. As at 30 September 2019:

- (a) VPIS's Actual Solvency Capital was \$2.66m (2018: \$2.72m)
- (b) VPIS's Minimum Solvency Capital was \$0.708m (2018: \$0.687m)
- (c) VPIS's Solvency Margin was \$1.951m (2018: \$2.035m)
- (d) VPIS's Solvency Ratio was 376%. (2018: 396%)

8. SHORT TERM INVESTMENTS

The carrying value of cash and cash equivalents approximates their fair value.

Cash at bank earns interest at floating rates on daily deposit balances. Short term deposits for original maturities of 103 days and 35 days were earning interest rates of 3.03% and 2.02% respectively. There are currently no short-term deposits.

9. CAPITAL WORK IN PROGRESS

VPIS has engaged a software developer to customise a new Insurance Portal for customers, which part 1 was delivered late September 2019 and has been capitalised but not depreciated at balance date. Costs to date are recorded as intangible assets and total \$354,188 as at 30.9.2019.

10. INTANGIBLE ASSETS

Intangible assets are stated at cost less accumulated depreciation and impairment.

2019	Opening Cost	Plus Additions	Less Disposals	Closing Cost	Amortisation for the year	Accumulated Amortisation	Carrying Amount
	\$	\$	\$	\$	\$	\$	\$
Software	0	354,188	-	354,188	-	-	354,188
Computer Hardware	0	2,949	-	2,949	197	197	2,752
	-	357,137	-	357,137	197	197	356,940

2018	Opening Cost	Plus Additions	Less Disposals	Closing Cost	Amortisation for the year	Accumulated Amortisation	Carrying Amount
	\$	\$	\$	\$	\$	\$	\$
Software	175,122	-	-	175,122	-	175,122	-
	175,122	-	-	175,122	-	175,122	-

The full value of VPIS's new sales and policies portal has been capitalised at 30 September 2019 as it was operational in the last week of September and used to supply quotes to the reinsurers.

11. INVESTMENT PROPERTY

VPIS has a 25% ownership in the land and building situated at Level 2, 44 Victoria Street, Wellington, the principal place of operation. Ownership is shared with New Zealand Veterinary Association (NZVA) and the New Zealand Veterinary Trust (as successors to the New Zealand Veterinary Association Foundation for Continuing Education) under an agreement for purchase dated August 2006. VPIS is restricted from disposing of the asset since it owns only 25% of the property. There are no contractual obligations to purchase, construct, develop the property or for maintenance and enhancements.

An independent valuation was undertaken in 2017, which did not disclose any reason to adjust the asset for any impairment. The next impairment assessment is planned to be undertaken in 2020.

VPIS receives rental income from NZVA.

Investment property is stated at cost less accumulated depreciation and impairment.

Investment Property	Opening Cost	Depreciation for the year	Accumulated Depreciation	Carrying amount
	\$	\$	\$	\$
2019	253,658	3,525	55,704	197,954
2018	253,658	3,525	52,179	201,479

Reconciliation of the carrying amount at the beginning and end of the period:

Investment Property	\$
Opening balance as at 1 October 2018	201,479
Additions	-
Disposals	-
Depreciation	3,525
Closing balance as at 30 September 2019	<u>197,954</u>

Notes to the Financial Statements
For the year ended 30 September 2019

12. FINANCIAL INSTRUMENTS RISK

VPIS is exposed to various risks in relation to financial instruments. VPIS's financial assets and liabilities by category are summarised below:

	2019	2018
Financial Assets	\$	\$
Cash and Cash Equivalents	263,241	293,412
<i>Loans and Receivables</i>		
Short term Investments	-	100,000
Receivables	235,090	550,046
Financial Assets at fair value through Profit and Loss	<u>2,364,951</u>	<u>2,214,914</u>
	<u>2,863,282</u>	<u>3,158,372</u>
Financial Liabilities		
Accounts payable	122,902	48,497
Sundry payables	<u>258,614</u>	<u>214,144</u>
	<u>381,516</u>	<u>262,641</u>

VPIS has exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. Key areas where the entity is exposed to credit risk are:

- Reinsurers' share of insurance liabilities;
- Amounts due from reinsurers in respect of claims already paid;
- Amounts due from insurance contract holders;
- Amounts due from money market and cash positions.

VPIS structures the levels of credit risk it accepts by placing limits on its exposure by having reinsurer insurance in place to cover amounts that exceed \$50,000 in one claim or \$150,000 over one insurance year. Reinsurance is used to manage insurance risk.

Liquidity and market risk are managed by VPIS through the reinsurance agreement and through limited cover explained above. VPIS's reinsurance provider has a financial risk rating of A+.

As a small insurer, VPIS is not required to have a credit rating.

13. COMMITMENTS

VPIS has engaged a software developer to customise a new Insurance Portal for customers, which was delivered in September 2019. Further work is to commence during 2019 on a claims system that will link to the new insurance portal. No costs have as yet been incurred but will be carried as work in progress once work commences. The work to date has been capitalised and further costs will be capitalised as integration with the financial system is currently underway. Total funds committed for this at 30 September 2019 is \$13,641.

Notes to the Financial Statements
For the year ended 30 September 2019

14. KEY MANAGEMENT PERSONNEL

VPIS services apart from the CEO of VPIS are provided under contract from New Zealand Veterinary Association Incorporated (NZVA). VPIS from April 2019 has one employee.

Alpha Woolrich was an NZVA employee but appointed CEO of VPIS in April 2019.

There is a management fee charged by NZVA (see note 15) includes the cost of other staff salaries and the CEO until April.

15. RELATED PARTY TRANSACTIONS

Rental

VPIS receives rental income from New Zealand Veterinary Association Incorporated (NZVA) who occupies the premises.

Rental Income received for the year was \$24,252 (2018: \$20,400), owed to VPIS as at 30 September 2019 was \$2,694 (2018: \$1,955).

Management Fees

VPIS is charged by NZVA for management services provided to VPIS. All transactions are agreed by the VPIS Board.

Management fees were \$125,130 (2018: \$157,188).

Amounts owed to NZVA as at 30 September 2019 were \$20,240 (2018: \$188).

Key Management Personnel

VPIS employed one staff member from April 2019.

Total costs incurred \$60,494. (2018: nil)

Fees paid to Board Members

Board members of the VPIS are contracted as insurance assessors from time to time.

Board member fees, Audit and Risk Committee fees and membership committee fees paid for the year were \$80,783 (2018: \$82,500).

Board and Audit and Risk Committee fees owed to Board members as at 30 September 2019 were \$nil (2018: \$nil).

Assessors Fees paid to Board members for the year was \$140,790 (2018 \$79,387).

Veterinary Professional Insurance Society Incorporated
Notes to the Financial Statements
For the year ended 30 September 2019

Fees paid to Board members continued;

Board Members received the following payments:

Name		Assessor Fees		Assessor Fees Payable at Balance Date (inc GST)	
		2019	2018	2019	2018
